Digital Transport Days

2017 Tallinn Estonia

The social dimension of the transition to automation

Catherine Trautmann

European TEN-T Coordinator,
North Sea-Baltic Corridor

Panellists

Mario Dogliani, Technical Director, SEAEurope

Lamia Kerdjoudj-Belkaid, Secretary General, Federation of European Private Port Operators (FEPORT)

Anna Kramers, Program Director, Mistra SAMS (Sustainable Accessibility and Mobility Services)

Matina Loukea, Centre for Research and Technology Hellas - Hellenic Institute of Transport

Tom Voegelé, Policy Analyst, Intelligent Transport Systems, OECD/ITF

Questions

- What would be the rules needed to support a socially sustainable transition to digitalised/automated professions?
- How to prepare the workforce to future jobs and skills?
- How can digitalisation be used to attract more women and youngsters?
- How to ensure inclusiveness?

What would be the rules needed to support a socially sustainable transition to digitalised/automated professions?

How to prepare the workforce to future jobs and skills?

How can digitalisation be used to attract more women and youngsters?

How to ensure inclusiveness?
